Recently completed Interactive Media Design program and skilled in HTML, CSS, JavaScript and design tools. Collaborated on team project to design and build responsive website using WordPress Divi Theme for a real client. Quick learner with strong attention to detail and passion for creating visually appealing and user-friendly websites. Seeking front end web development position to continue honing my skills and expanding my knowledge in this field.

EXPERIENCE

:: UX Designer & Web Developer | Oct. 2022 – Dec. 2022 | SELspace

- Make blog pages using Divi theme, including theme builder and theme options, and add plugins for managing the posts on WordPress.
- Support teammates for fixing errors.
- Make grand chart for the project.
- Make the tablet version for website based on the desktop one.
- Update the branding guide with the new color palette.
- Add and fix some features as client required in the tablet high-fidelity.
- Support the team in making meeting slide, scheduling and organizing tasks for the team on basecamp

- Work directly with the client to get their demands and expectations as well as give them some recommendations and training to work with the posts.
